

Special Operations

The Special Operations Team at The SPECTRUM Group (TSG) supports our clients' business objectives in the U.S. Special Operations Command (USSOCOM) and the Service SOCs through our team's deep experience and strong connections with Special Operations and Rapid Acquisition Program decision makers.

Our Special Operations Team is comprised of Army, Navy, Marine Corps and Air Force operators with wide community networks and extensive experience helping position clients for enhanced market penetration. Our work in support of our clients' missions spans identifying current and future Special Operations requirements, providing science

and technology insights, enabling selective, targeted access to key decision-makers, and providing strategic planning and business development support.

With access to the SOCOM Legislative Liaison Office, our team is also uniquely positioned to help our clients with devising legislative strategies to acquire funding. By partnering with our in-house Army, Navy, Air Force, Marine, Defense & Aerospace and Government Relations teams, we help our clients meet their specific Special Operations mission goals.
